

Every tough
exterior
has a softer
side.

LIBERTY

FRENCHCLAD DOOR

WE'RE ABOUT FAMILY

**And, every
soft side
has a tough
exterior.**

NOTE: This product has been finished with a fruitwood stain for display purposes.

A selection of natural wood interiors add warmth and beauty to your home.

Adjustable hinges allow vertical and horizontal adjustment of the door panel so that it operates well and stays weather-tight for years to come.

Maintenance-free exterior is available in two versatile standard colors (Pearl White and Silversand).

Introducing, the Liberty FrenchClad Door

*A home improvement product that the whole family can enjoy.
Our long list of features have wide spread appeal.*

Liberty FrenchClad Doors combine a tough, durable, maintenance-free PVC exterior with a beautiful, rich natural wood interior. A large area of insulated glass creates a very spacious view. The result is a very appealing entrance that provides maximum light without sacrificing energy efficiency or security. They are ideal for decks, patios or porches.

FEATURES AND BENEFITS

- A choice of natural pine, oak or maple interiors coordinate with any decor
- Maintenance-free exterior is also available in many popular custom applied colors for design flexibility
- North American style multi-point hardware has an independent deadbolt, making it easy to operate and engage
- Classic hardware provides an enhanced appearance with the added security of a 3-point locking system
- Hardware finishes available in polished brass and satin chrome to compliment your decor
- Optional flush bolts provide a full double door opening
- Choose from three standard grill configurations (Colonial, Prairie and Provincial) or choose a custom configuration for a unique look
- Low-E Argon filled insulated glass and a Hi-Q Warm Edge spacer for greater energy efficiency
- Leaded glass designs are available for added beauty
- A color coordinated locking screen to allow fresh air in while keeping insects out
- Matching vinyl brickmold adds more profile to your door frame
- Door rails mortised, tenoned and doweled for structural integrity
- Unique sill design in cellular PVC and aluminum eliminates potential for rot
- Multiple hinging options for single or double openings suit any application
- Many sidelite and transom combinations to fill any space requirement
- Available with a full line of coordinating windows

NOTE: At present a screen is not available with our FrenchClad Single Door.

Hardware mechanism is made of stainless steel. Its durable, dependable and won't rust.

Rainguard along bottom of door protects against a driving rainstorm.

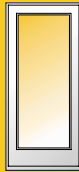

Durable, maintenance-free cellular PVC exterior is a better insulator than thin wall vinyl or aluminum.

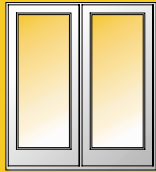

A beautiful, high quality veneer provides a rich, attractive appearance to the interior of the door panel.

The main panel consists of a solid engineered wood substrate which has been chosen for its structural integrity.

Our Company

Pollard Windows is a third generation family business, established in 1948. The Pollard formula for success has been hard work, reinvesting in new technology, and a consistent desire to give customers more for their money.

Today our plant has grown to 300,000 sq.ft. and we are recognized as a leader in window and door manufacturing technology. Beyond our equipment, is the strong sense of family that is ever present at Pollard Windows. It is that family tradition and a lasting commitment to exceptional value that has been the blueprint of our continued success.
