

make a grand entrance

POLLARDOR ENTRANCE SYSTEMS

High Performance Thermal Doors in Steel and Fibreglass

CHOOSE POLARDOR

HIGH PERFORMANCE THERMAL DOORS

First impressions are incredibly important. That's why at Pollard we don't just make great windows, we also make beautiful doors and entrance systems. Our Polardor Insulated Entrance Systems are manufactured with insulated steel or fibreglass doors and offer durability and security. Whether you choose a paintable wood or low maintenance vinyl frame, there is a design to meet your needs. Select from a wide variety of decorative lites with both matching sidelites and transoms. Increase the energy efficiency and enhance the curb appeal of your home with a Polardor Insulated Entrance System.

INDUSTRY LEADING FEATURES ON ALL FIBREGLASS AND STEEL DOOR SYSTEMS

Ultraprime Doors feature a Solid Wood Frame

The insulating properties of wood will add warmth to your home. All wood components are pressure-treated to protect against decay. Also, all frame joints are sealed to resist water penetration and are paint-ready to match your exterior finishes.

Tough Steel Door Skin

Durable 24 gauge steel skin resists warping, swelling or twisting like conventional wood doors. Hot-dipped galvanized steel assures long term protection and an excellent base for finishing.

Liberty Doors Vinyl Clad Frame

Liberty adds the benefit of a tough .065" thick, vinyl clad low maintenance exterior to our solid wood frame. It withstands all types of weather without peeling, flaking, pitting or corroding. Available in Pearl White, Silversand and Autumn Ivory colours. To give it a more traditional look optional brickmould can be purchased.

Weatherstripping

The closed cell weatherstripping used on the Polardor sill resists the absorption of water so that in cold winter months it does not freeze and lose its tight seal. On the remainder of the door frame, a foam compression weatherstrip is used to provide an optimal, secure seal around the perimeter of the door which in winter keeps warm air in and keeps cold air out.

Aluminum Sill

Constructed of durable 1/16" aluminum and features raised ribs which allow for good traction. Low profile sill available for greater accessibility. Available in black or standard mill finish.

Water Trap Sill Design

Driving rain is trapped in this unique, fiberglass channel and released to the outside through the weep hole. A weep hole cover helps prevent insects from entering below the sill.

Solid Wood Lock Block

Each door is equipped with a solid wood lock block to ensure permanent attachment of security hardware.

Fibreglass Door Skin

Durable and easy to finish. Available in both smooth skin for painting and wood-grain texture for staining. Dent and warp resistant.

Polyurethane Foam Core

The insulation value is at least six times greater than a solid wood door. With an R value of 12 it is the perfect solution for your home.

Sweepless Door

By eliminating the need for a door sweep there is no sweep to tear or adjust.

Vinyl Subsill

The durable 3/32" vinyl subsill resists rotting and cracking. The continuous sill running under the jambs prevents jamb rot.

PRIVACY GUIDE

Trimlite offers an extensive line of designs to choose from and the degree of openness or obscurity varies considerably. To help your decision making process we have photographed each design under controlled circumstances so that you can see the difference. With each picture, we have included a number which represents the 'Privacy Level' for that particular design. This number will be referenced on the individual product page as well. Note: this 'guide' is subjective. It should only be used when comparing Trimlite designs.

Please Note: Due to ongoing product development Trimlite reserves the right to make changes in design, materials and specifications without notice. Please contact your dealer for more information.

Doorlites featured in either smooth (white), woodgrain (stained), or fir (stained) fiberglass doors. Some exceptions apply. Door slabs supplied by Plastpro, inc., a leading manufacturer of fiberglass door products. Contact your dealer for a complete list of Plastpro products available in your area.

SPECIFICATIONS

CONSTRUCTION

- Handcrafted, our decorative glass panels stay true to their stained glass roots.
- Our selection of premium art glass and bevels, which makes our designs come to life, are hand cut and fitted. Careful consideration is given to choosing textures, complementing elements are crucial to a design's given appeal.
- Using solid metals, where all of the joints are soldered by hand, ensures the panels will be strong enough to withstand daily use.
- Once assembled, the panel undergoes a thorough cleaning and inspection process. This attention to detail is our assurance of quality to you.

GLASS VARIATION

Decorative pattern glass is handmade. Through this process, slight imperfections or discolourations are inherent characteristics of all handcrafted glass. Bubbles or seeds, slight surface flaws and subtle variations in textures vary depending on the pattern. Some glass patterns, like Swirl and Drawn, are more likely to have these inclusions. They are not considered defects.

Swirl Glass Detail

Drawn Glass Detail

CAMING OPTIONS

Hand soldered metals in 3 finishes. See individual product pages for availability.

Brass Caming

Subtle gloss finish that defines luxury and style.

Patina Caming

Black satin finish offers a rustic or antique look to your home.

Zinc Caming

Brushed chrome appearance brings a contemporary look to your entrance.

INSULATING SYSTEM

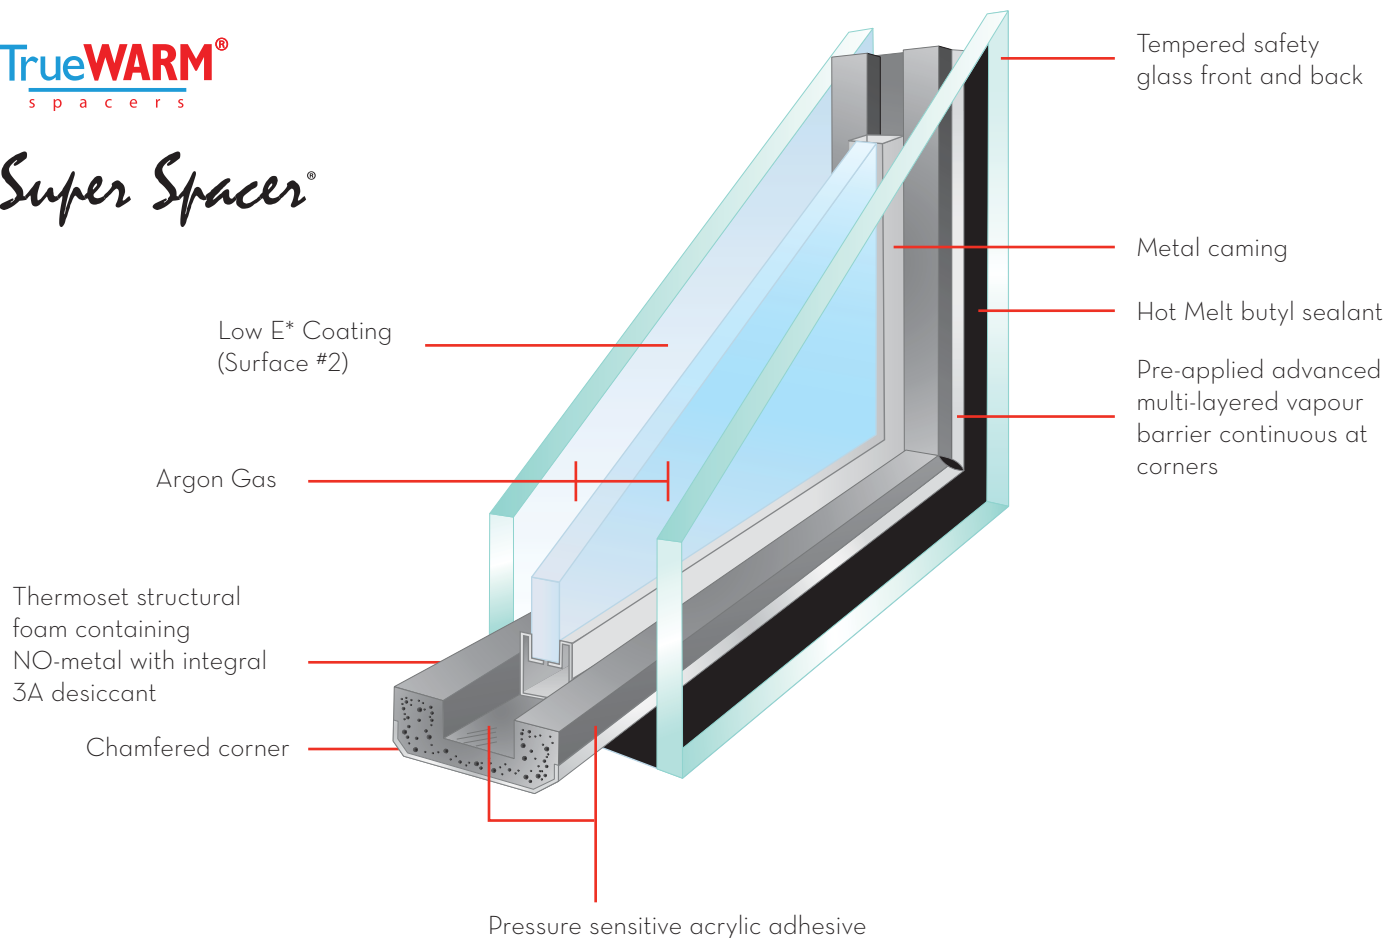

All Trimlite Decorative Doorlites are made with Super Spacer® Cushion Edge™, a flexible, U-shaped, silicone foam tape product used to wrap around and cushion our center decorative panel. Featuring a vapor barrier backing, the product used in combination with Hot Melt butyl, provides a superior Warm-Edge seal.

PERFORMANCE FEATURES

- Warm-Edge Benefits: Superior silicone foam insulation, low thermal conductivity
- Silicone Foam Features: Excellent UV resistance and extreme temperature performance
- Dual-Seal Performance: Chamfered corners for increased sealant depth
- Tempered Safety Glass for your piece of mind
- Low E* with Argon Gas for your comfort

TrueWARM®
s p a c e r s

Super Spacer®

All Trimlite Doorlites are certified by the National Accreditation and Management Institute, Inc. (NAMI).

All Trimlite products are energy tested. Consult your dealer for specific energy ratings.

Warranties: Our products are covered by separate limited warranties. Please contact your dealer for more information.

SuperSpacer®, TrueWarm® and Cushion Edge™ are all registered trademarks of QUANNEX BUILDING PRODUCTS.

*Our doorlites are available with Low E and Argon. However, some exceptions may apply. Contact your dealer for more details.

MODERN FARMHOUSE

A balanced blend of modern and rustic, the Modern Farmhouse style continues to be a rising trend. We paired some of our favorite door and glass options that intelligently mix modern and traditional.

BALANCING PRIVACY AND DESIGN

Retro is defined as remaking the past. Our Retro Series is an extension of our 1-Lite French Doors that have been remade specifically for our Exterior Doors. We selected our glass designs that balance privacy and design, as we believe your doorlite should always be elegant and safe.

Our glass designs pair perfectly with our standard frame options. And, like decorative designs, these come standard with Low-E and Argon for additional energy efficiency. Although these products may seem new, they are remade for you.

AT THE INTERSECTION OF FORM AND FUNCTION

Thoughtful, clean lines, simple design, and peace of mind. These guiding principles inspired us to create the Solution Series. Offering a selection of glass textures in sizes that allow your door to be the star.

A perfect complement to the glass is our Solutions Frame. Our unique design eliminates any screw holes, so you don't have to worry about gaps or screw plugs. Our patented* technology uses a compression seal and interlocking joints to adhere to your door, creating a powerful bond. The frame is built to resist warping and melting in high heat areas so it can be used with any color finish. Our textured frame comes in two colors to match any stain or paint.

Need more performance in your doorlite... Consider Cardinal LoE²-272 Glass

Available in the clear and white internal grid options, the insulating value of Cardinal's **LoE²-272** patented coating is nearly double that of an ordinary insulated glass unit. In winter, **LoE²-272** reflects heat back into the room. In summer, it rejects the sun's heat and damaging UV rays. The coating is virtually invisible to the eye yet blocks 84% of the sun's harmful ultraviolet rays. In fact, **LoE²-272** is the clearest, highest performing glass you can buy.

Some items are special order. For a complete list of sizes, glass and grid options available in your area, contact your dealer for more information.

SPECIAL ORDER GRIDS

Additional grid options available in various colours, sizes and patterns, contact your dealer for more information.

DOOR OPTIONS

Brickmould

Vinyl brickmould is available as an option for Vinyl Clad doors. It is available in four standard colours Silversand, Pearl White, Autumn Ivory and Sable to coordinate with your choice of windows.

Sill Protector

Optional sill protector is available to shield door sills during construction. Constructed of 1/16" vinyl, the protector snaps on tightly to prevent dents and scratches that may occur on the job site.

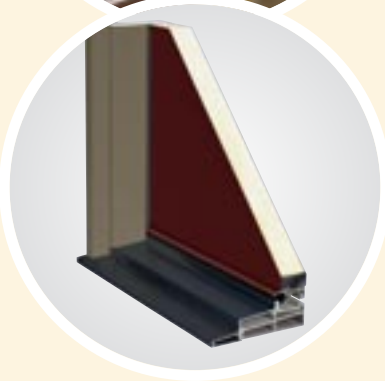

Executive Panels

For a more dramatic look add executive panels to your Steel Door System. The panels accentuate the embossing on the door.

Black Sill

Optional black sill and matching weatherstrip can compliment darker door finishes.

Hinges

All door systems come standard with durable galvanized zinc hinges. Optional brass hinges are available to match other brass accents in your home. Self closing hinges are also available.

Multipoint Hardware

Fibreglass doors are available with multipoint hardware. Offered in antique brass, polished brass, oil rubbed bronze and satin nickel for any decor.

Vinyl Clad Exterior Colours

Available in four standard colours Silversand, Pearl White, Autumn Ivory and Sable to coordinate with your choice of windows. Or choose from a variety of custom colours.

Pollard's industry leading warranty

Our commitment to our customers extends to our warranty, considered to be among the best in the business. We offer a solid manufacturer's warranty on parts, a non-prorated warranty on insulated glass units and a non-prorated warranty on all vinyl components. By concentrating on being the best - rather than the biggest - Pollard Windows has earned a reputation for superior quality and durability. Of all our accomplishments, our greatest satisfaction is the loyalty shown to us by many long standing customers. For more information on our warranties please log on to www.pollardwindows.com or contact your Pollard dealer.
